

Relaxing Waterside/Scenic Coast Card Tutorial

vicki@creatingwithvicki.com

PRIMARY SUPPLIES & SIZES USED

Relaxing Waterside Stamp & Die Bundle

Scenic Coast 6" x 6" Specialty DSP 5-1/4" x 4" + extra strip

Dotted Circles 3D Embossing Folder

Card Base: 8-1/2" x 4-1/4" Thick Basic White

Basic White Cardstock 5" x 3-3/4"

Balmy Blue Cardstock – for die cutting the chair.

~Fold the card base on the scored line & burnish with a bone folder if desired.

Embossing, Die Cutting & Stamping

~Emboss the 5" x 3-3/4" Basic white cardstock using the Dotted Circles embossing folder, placing it so that the circles line up with the pre die cut circle from the cardstock.

~Stamp 'Relax' onto the small piece of banner punched basic white cardstock

~Die cut the 'chair' using the die from the Relaxing Waterside die set. Assemble the pieces for the chair (using the separate guide showing how to assemble)

Assembly

~Adhere the larger piece of DSP to the front of the card base, centering it.

~Adhere the embossed piece over the DSP (I used dimensional adhesive).

~Attach the stamped banner piece to the right portion, positioned as you choose (I used dimensional adhesive for this too)

~Place the chair at the bottom left portion of your card to determine where to place your dimensional adhesive. I applied mine to the center and left area of the chair.

~Finish by placing the strip of DSP on the inside of your card. You may choose to cut this strip down smaller.
